[NSF graphic final 2016 \(002\).pptx](#)

Question: #3 on the the Nearshore Framework Components ppt reads “continuous learning and informed decision-making” but in the PRP it says “Continuous learning and adaptive management”. Do we want to keep the same or send new image?

**Sent:** Wednesday, September 21, 2016 11:47 AM  
**To:** Anderson, Janette (EC)  
**Subject:** RE: Consolidated Progress Report of the Parties to the 2012 GLWQA

Can you send me the “**editable source files and/or high resolution images**” for this NS Framework image? The graphics folks need a better image for production and to meet the US “508 compliant” which I think is re. disabilities. I think they can fix the colour and quality to the appropriate standard.

Ash

**Subject:** RE: Consolidated Progress Report of the Parties to the 2012 GLWQA

I note a slight change in the nearshore framework between the PRP and the final NSF report. PRPR has older graphic that has now been updated – can we change the PRP at this late date?

**Subject:** For Review: draft Progress Report of the Parties to the 2012 GLWQA

Dear Canadian and Provincial GLEC members,

Attached for your review is the latest draft of Progress Report of the Parties. An earlier draft of the Report was shared with you in advance of the GLEC meeting in Chicago. Since then, the draft has been revised by the GLEC Secretariat based on feedback from GLEC members, and Annex Co-Leads. Your input is welcome on the entire document. In particular, please flag any major red flags, opportunities to strengthen (rather than lengthen) text, as well as any programs or initiatives that are missing from the "domestic actions" section of each annex chapter, where

our objectives is to demonstrate a level of effort commensurate to that of our US counterparts. For your use, the following table maps specific sections of the report to individual organizations' responsibilities:

<< File: GLEC fed, prov PRP review.docx >>

**Please provide your input to Ash Kumar ([Ashij.Kumar@canada.ca](mailto:Ashij.Kumar@canada.ca)) by July 28, 2016.**

Following the review by Canadian Federal and Provincial GLEC members, we will work with the US EPA to finalize the report (including graphical production and layout). We anticipate beginning the formal process to secure ECCC approval of the Progress Report Parties in early August.

Thank you in advance for your cooperation and if you have any questions please contact me or [Carla.Torchia@canada.ca](mailto:Carla.Torchia@canada.ca), Acting Manager of the Great Lakes Environment Office.

<< File: PRP MASTER - Jul 12 Draft.docx >>

Best regards,

Michael Goffin
